TIGHT MONEY RULES THE LONDON MARKET

Great Depression in American Stocks Reacts Everywhere.

LONDON, March 28 .- The settlement of the account in general securities which proceeded on the stock exchange today found the markets more than ever at the mercy of holders of ready money. There has been a very large siness in loans and renewals at the Bank of England. The demand for money was such that holders of bills many cases were inclined to borrow rather than discount in the hope that after the turn of the month conditions may be more favorable. The fact that Moreover, she intends to stay right in bills are being held back has not pre-The government's financial year ends on April 1, and it is in a plight similar to that of the private investor. It is expected that the Transvaal loan will bear interest at 2 per cent and will be issued at 95. This expectation tends further to weaken consols as an investment.

There has been, moreover, a big specu lative account for a rise in consols since peace was declared. They have dropped 5 points since then, and the struggle to retain holdings for better times is a considerable factor in the hard monetary situation, though it is tacitly admitted that the active control of high finance has passed to New York for the time at London does not look for the pres ent for relief across the Atlantic. It is the strength of Paris that has furnished what support London has recently been able to secure. The break in values there yesterday and today consequently reacted

The fall in copper and copper shares, together with the drop in Spanish government securities, upon the resignation of Senor Vilaverde, the finance minister of that country, inflicted heavy losses here of French holdings in South African mines, besides the withdrawal of money loaned here. Money has also become scarce in Berlin, and the leading German banks have withdrawn a considerable proportion of the balances they have been employing on the London stock exchange. These aggravated the fall in consols and helped the general depression in stocks.

Rates today for loans till Monday were 31/2 @33/4 per cent. The markets are practically at a standstill, while the account is being settled. All the markets have been affected by the depression in Amer icans. At the opening today New York Central fell 4, Chicago, Milwaukee, and St. Paul 3, Norfolk and Western 21/4.
